

COVID-19 Safety Protocols

At Quest AV, we recognize the significance of COVID-19 and the impact on the events industry. With respect to the current global landscape, we have implemented the following protocols to ensure the safety of all personnel during future events with our valued partners.

On-site PPE equipment

Sanitation stations

Socially-distanced lounge area

All inventory is thoroughly sanitized after every individual use

Available private client washrooms & separate entrances

Additional measures on request

In certain instances, Quest AV staff may be required to operate on-site support for your event. We will work with organizers on limiting the physical presence of personnel on set with regards to current provincial restrictions. We recommend utilizing, at minimum: our Lighting technician, Audio Technician, Video Technician, Streaming Manager, and Project Manager. All staff and visitors entering into the Quest AV building are required to wear masks and practice social distancing measures.

Flexibility has always been a core value at Quest and we will continue to offer thoughtful solutions for our partners to be able to reach their audience in a safe and effective space.

We pledge to continually follow and evolve our safety protocols from the recommendations of Public Health Ontario and the Government of Canada.

For questions or concerns, please reach out to your account manager or with the contact information below.
